LIMPIADOR DE USO GENERAL

Technical Data

Areas of Use

For use on:

- Floors
- Walls, treated woodwork
- Terrazzo and marble
- Hard surfaces sensitive to low and high pH

Specifications

Available Sizes.....	4/1G, 1.25G cleanworks
Physical State.....	Liquid
Color.....	Clear, yellow
Odor.....	Low
pH Range.....	4.5 - 5.5
VOC's.....	< 1%
Foam Level.....	Ultra Low
Shelf Life.....	1 year minimum in unopened container
Freeze/Thaw Stability.....	Excellent
Solubility in Water.....	Complete
HMIS Hazard Rating	
Health.....	1
Flammability.....	0
Reactivity.....	0
Personal Protection.....	A

Description

- High performance neutral pH cleaner
- For hard surface floors
- Prolongs the life of floor finish
- Designed for daily autoscrubbing or damp mopping
- Environmentally preferred
- Formulated to meet strict environmentally preferable requirements

Products marked with the Triple S EarthCare™ seal meet recognized green standards or have features that contribute to the preservation or sustainability of a healthy environment.

Formulated with new environmentally-preferred, high performance technology, this multi-use cleaner is designed for floors, walls, woodwork and other washable surfaces where a neutral pH solution is desirable. Removes soil without dulling, damaging, etching or harming floor finishes. Designed to be used for daily autoscrubbing or damp mopping of hard surfaces. It is free rinsing and leaves no film or residues. Safe for cleaning terrazzo, marble and other surfaces sensitive to low and high pH. Ideal for hospitals, schools, kitchens, restrooms, offices, fitness centers, institutions, kitchens, and many other types of facilities.

Compass Neutral Floor Cleaner has been 3rd party certified by Green Seal according to GS-37 Environmental Standard and is recognized by the U.S. Environmental Protection Agency Design for the Environment (DfE) Formulator Initiative.

Directions

Wear safety equipment recommended on MSDS, read all directions and cautions prior to beginning your work.

This product is formulated to work with cold water. Cold water conserves the energy required to heat water.

1. For light soils: Dilute 1/2 ounce per gallon (1:256) with cold tap water.

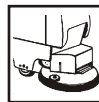

For moderate to heavy soils: Dilute 1 ounce per gallon (1:128)* with cold tap water.

2. Apply with mop/bucket, sponge, cloth, wiper, autoscrubber, floor scrubber, pressure water or spray bottle.

3. Allow time for solution to penetrate soil.

4. If necessary, scrub with sponge, cloth or pad to speed up the cleaning action.

5. After soil is loosened, mop, wipe, wet vacuum or wash away with a cloth or water. No rinsing is necessary.

All products displaying the EPA DfE logo have been Formulated in Partnership with EPA Design for the Environment Formulator Initiative.

* This product meets the Green Seal™ environmental standard for industrial and institutional cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.
